Traditional Pipe and Drape backdrop

Addition of the QuickDrop graphic system
Shown on typical exhibit hall pipe & drape - Not Included.

Trade shows do not get any easier than this. Travel to and from your next trade show with a single 13" x 19" / 6lb bag. Designed to attach directly to an exhibit supplied pipe and drape system, QuickDrop is simply the fastest most convenient solution.

Either by using the supplied ball bungees and hooks or by utilizing the top pole on any pipe and drape structure QuickDrop is simple, convenient, economical and a super traveler. As fast as the QuickDrop is put up it can be taken down, folded up and your off to meet the next opportunity or catch an early flight.

QuickDrop™

Set Up Instructions

Includes:

- Graphic with silver 3/8" grommets and pole pocket
- 5 Black Ball Bungees
- 5 Silver Hooks
- Black carry bag

Step 1:

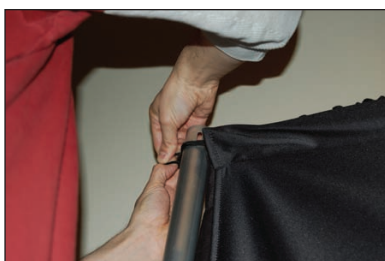

Thread a black ball and bungee cord through each corner grommet on the QuickDrop graphic.

Step 2:

Loop the bungees at the top of the QuickDrop graphic over the booth's top corner pipes.

Fasten Bungee on one end then the other. A chair or ladder is recommended when doing this step.

NOTE: Use supplied hooks in grommets at top of graphic for additional graphic support.

Step 3:

Wrap the bungees at the bottom of the QuickDrop graphic around the bottom of the pipe. Place the knob of the bungee through the loop to fasten.
