- Anywhere there is a wall...

Maximum size for a single section is 52" X 20'. 52" super wide by monster heights, meets or exceeds Federal Specification: CCC-W-408A & CFFW-W-101-D includes Early Warning Effect® fire detection for life and property protection.

uVision-it uses the print-on-it industry leading uv direct print process. This premium technology is combined with the highest quality commercial grade true wallpaper. When you choose uVision-it wallcoverings or any other -

 **print-on-it**  
you are using the best!

AFTER: Abaco Beach Shown on Interior Corporate Wall

**You** vision it and **uVision-it**  
image wallcoverings meets the demand.

# personalization

## unique atmosphere

Personalize any indoor environment with uVision-it wallpaper. With UV technology colors are vivid, flesh tones are life like. images are sharp, and text is crisp. Create a unique atmosphere or theme to any indoor environment.

# texture enhance

**uVision-it** certified wall coverings enhance any environment. Three popular paper styles Abaco Beach, Nassau Dunes and Mongahello yield state of the art image quality. All three textures make the most of the **print-on-it** digital imaging process combining color, light, shape and shadow to bring your walls alive beyond expectations.

## create your vision

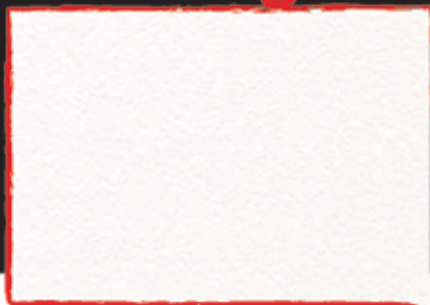

Contact the installer of your choice before ordering. This will help assure you will have the most accurate information needed to order and produce your wallcovering to determine roll width preference and any other pertinent installation specific details. Check your local Yellow Pages for professional Paperhangers.

Exciting Interior Spaces

## 3 great texture options

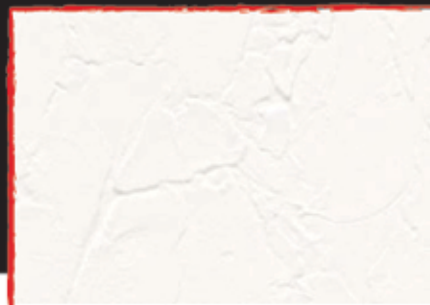

Shown unprinted below.

**Abaco Beach** - has a fine sand texture with a smooth feel.

**Nassau Dunes** - has a pitted texture with a moderately flat touch.

**Mongahello** - has a stucco designed texture with hills and valleys.

Preferred choice of facilities managers, architects, design engineers and interior decorators, **uVision-it** meets the needs of large spaces and high volume applications.
