ECLIPSE SETUP INSTRUCTIONS

 Remove graphic and parts from the case and roll the graphic out on the floor, image side down.

2. Put the four pole pieces together and fit the top of the pole into the top hanger bar located on the top of the graphic.

3. Place the foot (A) into the bottom hanger bar and then bend rear pole (B) & fit into hole on top of foot.

4. Raise the stand to an upright position by lifting the top hanger bar and place next to another Eclipse (See pic 5). The edge magnets will connect and minimal lineup adjustments may be necessary.
